

Wastewater Utility Green Power Report

September 2011

Electricity Generated this month: **69,877 kWh (kilowatt hours)**

This is equal to the electricity used by 76 homes in a month.

This amount of electricity would have cost \$4,891 if it had been purchased from Duke Energy.

20,000 gallons of grease were processed in our digesters for the month.

30 tons of food waste from Purdue University were processed in our digesters this month.

**18% of our plant's power has been generated
on-site in 2011.**

The City of West Lafayette's Wastewater Utility has pledged to generate at least 10% of its electricity on-site in 2011 as Indiana's first wastewater plant to become an EPA Green Power Partner.
